A Global Shield Solutions Company

sd labs Products

By Global Shield Solutions Asia

To create a better environment where people live, work, and play all day, every day.

We aim to educate our customers on new strategies to improve daily working and living conditions and reduce risk through an integrated approach of enhanced knowledge, technically advanced products, more efficient tools, and unique services designed to help

CLEAN, DISINFECT & PROTECT

their surroundings in a safe, proactive, and environmentally responsible manner.

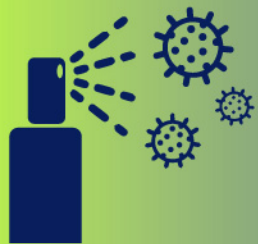

sd labs Products

- Features **high performance coatings with antimicrobial** actives that have revolutionized the environmental coatings market
- USA's **Environmental Protection Agency (EPA)** registered
- Features industry-leading efficacy and durability, **lasting for 90-180 days with 1 spray application**

Our Products - sdst

Self-disinfecting coating contains **unique antimicrobial active** that kills germs.

Lasts for **90 days**. Prevents them from breeding on communal touch points and even on personal items like laptops or mobile phones.

A Global Shield Solutions Company

Our Products - sdpro

A high-performance self-disinfecting coating with antimicrobial technology. Industry-leading efficacy and durability,

lasts 180 days with
1 electrostatic spray application.

Identical to sdst in product function and intended uses. Application through unique hydro-electrostatic sprayer to achieve antimicrobial efficacy. Intended for large-scale application.

Why use our products?

**Control bacteria, fungi
and viruses** that cause stains,
odours or surface damage

Self-disinfecting for
90-180 days
with just 1 application

**Bond to treated
surface.** Not removed
by regular cleaning

How are sdst & sdpro different from other products?

While other cleaning agents stop killing germs once the solution dries, sdst & sdpro continues **killing microbes** (bacteria, fungi and viruses) **for 90-180 days** even after drying.

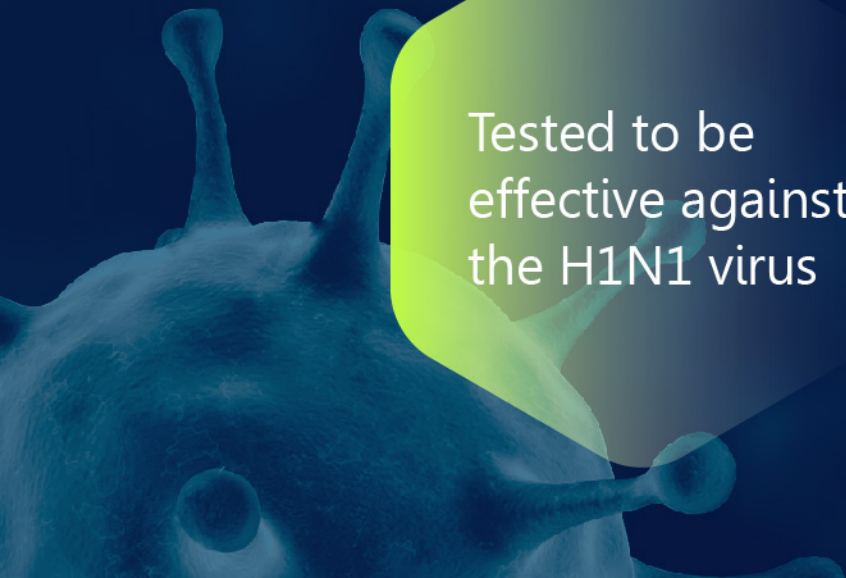

Our products are also approved by **USA's Environmental Protection Agency (EPA)**

sd labs products are effective against COVID-19

Contains US CDC-approved ingredient that is effective against COVID-19 and similar strains

Tested against the norovirus according to CDC's guidelines

Tested to be effective against the H1N1 virus

Our products are proven to work

Our products have been applied in local childcare centers to combat against HFMD (Hand, foot, and mouth disease), Diarrhea, Influenza, etc

Centers have reported

80-100%

success rates in the elimination of outbreaks.

全岛首个 高文巴刹与小贩中心喷持久消毒膜

陈劲禾 报道
(TheRaspri@zaobao.sg)

高文第209座巴刹与小贩中心前天在桌椅、摊位与厕所等表面喷上消毒膜，以提高场所的消毒水平，挽回流失的顾客。

全岛首个巴刹与小贩中心陆续有人感染疾病，造成人心惶惶。高文209小贩宿舍主黄文朝才接受《联合早报》访问时说，虽然巴

刹与小贩中心不是被令关闭的其中一家，但生意大受影响。“喷消毒膜是希望能给顾客信心，让一些顾客回来。”

这个巴刹与小贩中心由阿哈尼—后港市镇会负责清洁与维修，谈市镇会说，这是全岛第一个在整个场所喷持久消毒膜的巴刹与小贩中心。

消毒膜供应商Global Shield Solutions的

销售经理郑耀受访时说，这种消毒膜由微米大小的针构成，可刺穿细菌与病毒等微生物的细胞膜，让它们无法传播。消毒膜可耐100天，不必经常重喷。

他说，不少场所都已喷上这种消毒膜，如樟宜机场、巴士、地铁、托儿所、军营与一些私人企业，这是公司第一次为巴刹与小贩中心喷消毒膜。(梁斯颖摄)
