

Long-lasting Protection

for your family and workplace

What is sd st / sd pro?

sd st and sd pro are high performance self-disinfecting coatings with antimicrobial technology that inactivates viruses and kills bacteria, fungi and mould. With only 1 application, our powerful and durable protection works 24/7, with sd st lasting 90 days and sd pro lasting 180 days. Our product is US-EPA registered, gentle on skin and safe for children.

Why sd st / sd pro?

It's resilient

Our industry-leading coating molecularly bonds to treated surfaces and will not be removed by regular cleaning.

It's long-lasting

Treated surfaces stays self-disinfecting for 90 - 180 days with just 1 electrostatic spray application.

It's powerful

Our products inactivate viruses, and kills bacteria and fungi which cause stains, odour or surface damage.
